

THE MURDER OF HIS WIFE

A Terrible Crime Is Charged to Frank Sattelthigh, of Virginia Beach.

Freight Trains Collide at South Norfolk—Men Charged With Absolution.

(Special to The Times-Dispatch.)

NORFOLK, Va., July 23.—Frank Sattelthigh, formerly of Norfolk, where his parents now live, but later residing in Princess Anne county, is wanted by the authorities of that county upon the charge of having killed his young wife, Mrs. Mary Sattelthigh, with a monkey wrench at his home near Virginia Beach last night, following a family quarrel.

Sattelthigh, after the alleged murder, seized his one-year-old child, carried it to the home of his maternal grandparents, and then left for Virginia Beach. He was seen at the beach for about half an hour, and at 10:30 o'clock came to Norfolk by train. An hour later the Princess Anne authorities telephoned this city, asking the Norfolk police to be on the lookout for the alleged murderer. The local detectives started a search for Sattelthigh, but could find no trace of him in this city.

Four thousand dollars' worth of copper was stolen from St. Helena naval reservation early this morning and was recovered from the wagon of a colored man named Charles Harold later in the day. It appears that Harold found the copper in some bushes near Berkley after he had sold a wagon of cabbage and he placed it in his wagon and was driving to the police station with it, when he was arrested by Special Policeman Bob Gray.

FREIGHTS IN COLLISION.
Freight engines Nos. 9 and 24, each pulling a train of ten or fifteen cars, had a head-on collision this morning on the Norfolk and Southern Railroad, South Norfolk. The engines and freemen on each train foreseeing the collision, jumped and were not hurt, as neither train was running fast.

The locomotives jammed each other so hard, there was hardly a foot of space between their smoke stacks. It seems that the engineers on both trains saw the collision and consequently it was not their fault. The accident occurred on a curve.

ABDUCTION CHARGE.
Kenneth Barham and Pennie Skinner were arrested last night on A. H. Lindy's Cumberland farm. Barham was charged with abducting Pennie Skinner, a girl of about fourteen years. He has a wife and children living in Edenton, N. C., and it was at the request of the Edenton authorities that Barham was arrested. The girl claims it was her father, as she stated she asked Barham to run away with her.

North Carolina Sentiment.

The Charlotte Chronicle sums up its idea of results this way: "It has been asked what influence the election of this year would have on business. It ought not to have any. If Roosevelt is elected the conditions we have now are not bettered. If Taft is elected the conditions will be better. The business man need not worry about the campaign."

The Raleigh News-Observer says.

Judge Parker has given out that he will not be a home during the campaign. He probably recalls the Henry Clay, James G. Blaine and William Howard Taft campaigns but was not elected.

The Wilmington Star is not altogether as sanguine as it was.

We thought we were safe when it was announced that Blaine had been elected. But now that General Weaver is going to support Parker.

Here is the way the Goldsboro Argus sees things over in its bailiwick:

Cheers do not bring votes. Henry Clay was not elected. Blaine was not elected. Bryan. The quiet fellows are the most numerous on election day, and the silent vote counts. If Parker is elected, this is a Democratic year, and the Democrats are apparently making the best of their opportunities.

Roosevelt and the Gold Democrats.

There is no reason to doubt that the mass of the gold Democrats intend to follow their party at once. They render their affiliation with it agreeable. Mr. Roosevelt, who is not lost to appreciation of the difficulties of the gold Democrats, is surely easier to prevent their return, and in this fact may be found the reason for his appointment. It is, however, quite place in his cabinet. It is, however, quite

likely that he will find the gold Democrats not the sort of men to be caught with bait of this kind—Binghamton Leader.

According to the best modern authorities the so-called amber found in Syria, India, and Madagascar is not amber at all, but a resin, heavily impregnated with the product of leaf-bearing trees growing at the present day. True amber is the resin of ancient trees long since extinct, and there is a good deal of conflict among scientists as to which geological period it belongs to.

Rev. J. R. Lawrence, the United States government expert potato grower, whose home is at North Middleboro, Mass., says he believes that "there is more room in the world for a farmer who can preach than there is for a minister who can preach to farm to get a living. He grows new varieties all the time."

Walter Kittredge, the author of that world-famous song "Tenting on the Old Camp Grounds," is still living in the city of North Middleboro, Mass., where he composes, even at his advanced age. He first wrote the words of the song, then picked them up from a street singer, his violin, and played it first on an old melodeon. He has both instruments in his possession, although the song was written forty years ago.

TWO CULMINATIONS.

BY PROF. EDGAR L. LARKIN.

IN the remote East two nations—two races—are engaged in a struggle which is the culmination of a long and bitter feud. The struggle is not one of mind-reason-seems to have been ignored. Living men are hurled by monarchs against walls of steel and stone, their bodies are destroyed by death-dealing engines. It is hoped that arbitration, the use of discretion, judgment and reason, as proposed by The Hague Tribunal, would obtain, and that the horrors of the war would be permanently averted. But the contest between Japan and Russia seems to have turned the hands of the clock of progress backward.
